Dear Mother

great thing to have father here for the whole week
I see to the children as the sun - put them
in the morning - Miss Smith & Mrs. two
children - make me busy & get up breakfast
with the children & away for highway at 10 past
11 - a kind of a party - more of too much
them before we get through with dinner & matters
& after it is the middle of the afternoon
father where we have been busy getting the children
Henry's things made & Sunday's made so & get
way sent & things done - & the new book under
of one eye - we have a good lot of women
entirely - but she is great - I am full
quiet to be done go on with her until
some of my boys & their betting son
& Catherine this far is invaluable - with the
of every thing & keeps things in their places - what
you know is good & make matters - she really
the family - it is a woman to have a person who
can be trusted with every thing - Henry - the think perfect
men of learning it is more & more painful
tell you all these particulars - because I know they
will be happy & you know - I shall have more
some more - have you better to write to
Henry & affectionate letter from the fourth of July
